## SUBJECT INDEX

- Activation  
   lymphocyte, detected by fluorescent probes (review), 1  
   lymphocyte, suppressed by histamine, 739
- Adherence  
   bacterial, isolates killer lymphocytes, 510
- Adjuvants  
   for cell-mediated immunity, 426  
   for humoral response, 426  
   induce IgE responses, 183
- Aged humans  
   antibody response in, 208
- Albumin  
   bovine serum, alters C3 response, 355  
   antigenic determinants on, 233
- Amenorrhoea  
   steroid-producing cells in, 97
- Antibodies  
   anti-lymphocytotoxic, in malaria, 663  
   anti-nuclear, in rheumatic diseases, 538  
   CMV, production of, 263  
   define lymphocyte markers, 477  
   detected with trimellityl-erythrocytes, 470  
   ENA, in RA, 146  
   pancreatic islet cell, 125  
   platelet, in ITP, 645  
   red cell, and the HART, 635  
   to BCG in mycobacterial infections, 562  
   to breast cancer, 90

- Antibodies *cont.*  
 to bovine collagens, 119  
 to glomerular basement membrane, 136  
 to host IgG, 449  
 to measles and distemper viruses, 44  
 to mitochondrial antigens, in PBC, 599  
 to synthetic C-terminal peptide in hCG, 112
- Antibody  
 antitubulin, in IM, 328  
 smooth muscle, relationship to antitubulin antibody, 328
- Antibody response  
 age-related impairment of, 208
- Antibody specificity  
 in SSPE, 652
- Antigen  
 Goodpasture, in mouse tumour, 733  
 hepato-renal, characterization of, 626
- Antigenic determinants  
 exposed on BSA, 233
- Antigens  
 bacterial recall, LR impairment to, 272  
 blood group, on T lymphocytes, 403  
 extractable nuclear, in RA, 146  
 human heart valve glycoprotein, in LMI tests, 519  
 'Ia-like', on veiled cells, 750  
 liver, in toxic liver injury, 607, 618  
 mitochondrial, in PBC, 599  
 RNA protein, in LMI tests, 519  
 T and p28,33, identification of, 66
- Antiglobulin reactions  
 in malaria, 279
- Antisera  
 anti-hairy and anti-B cell, 756
- Arthritis  
 rheumatoid, ENA antibodies in, 146  
 immune complexes in, 297  
 migration of neutrophils in, 240
- Asbestos exposure  
 lymphocyte function following, 176
- Autoantibodies  
 steroid-cell, in endocrine disease, 97
- Autoimmune disorder  
 erythrocyte, and the HART, 635
- Autoimmunity  
 genetic lesions of (review), 545
- Autosensitization  
 in ITP, 170
- $\beta_2$ -microglobulin  
 causes platelet aggregation, 461
- BCG  
 antibodies to in mycobacterial infections, 562  
 effect on lymphoid organs, 60
- BCG revaccination  
 lymphocyte responses following, 442
- B lymphocyte receptors  
 for antigen-antibody complexes, 676
- Clq  
 in a ligand cocktail assay for IC, 576
- C3b receptor  
 enhancement of, 768
- Cancer  
 breast, antibodies to, 90
- Candidiasis  
 mucocutaneous, and E-rosette augmenting factor, 321
- Casein  
 alters response of serum amyloid P-component, 355
- Cations  
 divalent, in PMN binding, 583
- Cells  
 mononuclear, in afferent lymph, 750
- Chemoattractants  
 enhance C3b receptor expression, 768
- Chemotaxis  
 effect of heparin on, 526  
 neutrophil, decay of, 532
- Childhood  
 lymphocytes in, 203
- Chlorzotocin  
 effects on lymphocyte subpopulations, 416
- Cirrhosis  
 biliary, mitochondrial antibodies in, 599
- Colitis  
 ulcerative, monocyte lysosomal enzyme activity in, 785
- Collagens  
 denatured bovine, antibodies to, 119
- Complement  
 deficiency of the C8 component, 53  
 first component, inhibits RF, 154  
 in Hodgkin's disease, 551  
 third component, response to casein, 355
- Complexes  
 antigen-antibody, receptors for, 676  
 immune, *see* Immune complexes
- Conglutinin  
 in a ligand cocktail radioassay for IC, 576
- Coombs positivity  
 In Gambian children, 279
- Crohn's disease  
 monocyte lysosomal enzyme activity in, 785
- Cysticercosis  
 human, immunology in, 27
- Cytomegalovirus infection  
 and immune response, 263, 272
- Cytotoxicity  
 immune complex-mediated, in IM and SLE, 593  
 on macrophage tumour cells, 776  
 T lymphocyte, and  $H_2O_2$ , 486
- Diabetes  
 antibody population surveys, 125  
 juvenile-onset, T lymphocytes in, 130
- Dietary change  
 immune function following, 349
- Distemper viruses  
 antibodies to, 44
- Endocrine disease  
 steroid-cell autoantibodies in, 97
- Endotoxin  
 effect on monocyte lysosomal enzyme activity, 785
- Eosinophils  
 purified, from *S. mansoni* infections, 683  
 rosette-forming, 247
- E-rosette augmenting factor  
 clinical applications of, 321
- 'Facteur Thymique Serique'  
 effect on T helper and suppressor cells, 722
- Felty's syndrome  
 immune mechanisms in, 307
- Fibroblasts  
 interaction with lipoproteins, 455

- Globulin
  - anti-thymocyte, induces platelet aggregation, 461
- Glomerulonephritis
  - post-streptococcal, and LMI tests, 519
- Glomeruli
  - bound by PMN, 583
- Glucocorticoids
  - effects on PHA-stimulated lymphocytes, 503
- Gonadotrophin
  - chorionic, antibodies to a peptide of, 112
- Haemagglutination
  - detects antibodies, 470
- Haemolysis
  - detects antibodies, 470
- Haemophilia
  - immune complexes in, 315
- Hairy cells
  - characterization of origin, 756
- Heart disease
  - rheumatic, cellular immunity in, 519
- Heparin
  - and chemotaxis, 526
- Hepatitis B
  - lymphocytotoxins in, 289
- Herpes simplex virus
  - T cell response to, 668
- HLA-D
  - self, restricts T cell response to HSV, 668
- Hodgkin's disease
  - CIC and complement levels in, 551
- Hormones
  - thymic, effect on T helper and suppressor cells, 722
- Hydrogen peroxide
  - and T lymphocyte cytotoxicity, 486
- Hypogammaglobulinaemia
  - in CLL, 698
  - lymphocyte 5'-nucleotidase deficiency in, 337
- IgA
  - anti-lipoprotein, interactions with fibroblasts and LDL, 455
- IgG
  - production of antibodies to, 449
- IgE response
  - adjuvant inducement of, 183
- Immune complex formation
  - in Waldenström's hypergammaglobulinaemic purpura 164
- Immune complexes
  - and auto sensitization in ITP, 170
  - circulating, in Hodgkin's disease, 551
  - in onchocerciasis, 570
  - in RA, 146
  - in renal transplant patients, 141
  - detection by a ligand cocktail radioassay, 576
  - effect on monocyte lysosomal enzyme activity, 785
  - in haemophilia, 315
  - in induction of glomerulonephritis, 583
  - in mycobacterial infections, 562
  - in RA, 297
- Immune depression
  - reversed by pyrimethamine, 190
- Immune function
  - and dietary changes, 349
- Immune mechanisms
  - in Felty's syndrome, 307
- Immune system
  - of nasopharyngeal and palatine tonsils, 361
- Immunity
  - cell-mediated, adjuvants for, 435
  - in *T. pallidum* infection, 38
  - to liver antigen, 607, 618
  - to leishmaniasis, 14
- Immune response
  - in CMV infection, 263, 272
- Immunodeficiency
  - in CLL, 698
  - severe combined, and E-rosette augmenting factor, 321
  - membrane function in, 344
- Immunologic tolerance
  - mechanisms of (review), 257
- Immunology
  - in human cysticercosis, 27
- Immunosuppression
  - by tetracycline, 728
- Immunosuppressive factors
  - of maternal serum, 195
- Infertility
  - steroid-producing cells in, 97
- Inflammatory bowel disease
  - monocytes in, 785
- J chain
  - presence in lymphoid cells, 371
- Killer cells
  - dysfunction in MS, 657
- Latex particles
  - IgG-coated, interaction with RF, 154
- Lead exposure
  - T cell function in, 746
- Leishmaniasis
  - immunity to, 14
- Leprosy
  - lymphocytotoxins in, 289
- Leucocyte
  - migration inhibition, in rheumatic heart disease, 519
- Leucocytes
  - polymorphonuclear, cations in their binding, 583
- Leukaemia
  - acute myeloid, T lymphocytes in, 403
  - chronic lymphatic, immunodeficiency in, 698
  - mouse RBC rosettes in, 141
  - hairy-cell, mouse-rosette formation in, 83
  - T and B characteristics of, 76
- Lipoproteins
  - interaction with fibroblasts, 455
- Liver disease
  - antibodies to bovine collagens in, 119
- Liver injury
  - toxic, cell-mediated immunity in, 607, 618
- Lymph
  - afferent, mononuclear cells in, 750
- Lymphadenopathy
  - angioimmunoblastic, 386
- Lymphocyte abnormality
  - in brain tumours, 395
- Lymphocyte activation
  - detected by fluorescent probes (review), 1
- Lymphocyte markers
  - defined by antibodies, 477
- Lymphocyte reactions
  - suppressed by pregnancy serum, 195

- Lymphocyte reactivity
  - CMV-induced, development of, 263
- Lymphocytes
  - in children, 203
  - in asbestos exposure, 176
  - in tissue sections, 66
  - peripheral blood, affected by thymic hormones, 722
  - expression of receptors on, 222
  - spontaneous killer, isolation of, 510
- Lymphocyte stimulation
  - effects of steroids on, 503
- Lymphocyte subpopulations
  - chlorozotocin effects on, 416
- Lymphocyte traffic
  - measured with <sup>111</sup>indium, 215
- Lymphocytotoxins
  - in IM, 588, 593
  - in leprosy, 289
  - in malaria, 663
  - in SLE, 593
- Lymphoid cells
  - J chain present in, 371
- Lymphoid organs
  - effect of BCG on, 60
- Macrophages
  - express cytotoxicity on tumour cells, 776
- Malaria
  - antiglobulin reactions in, 279
  - lymphocytotoxins in, 663
- Malnutrition
  - protein-calorie, effect of thymopoietin in, 717
- Measles
  - antibodies to, 44
- Measles virus
  - antibodies to polypeptides of, 652
- Membrane
  - glomerular basement, antibodies to, 136
- Membrane function
  - in SCID, 344
- Meningococcal infections
  - and C8 deficiency, 53
- Migration inhibition
  - leucocyte, in rheumatic heart disease, 519
- Milk
  - neonatal, milk proteins in, 695
- Monocytes
  - in IBD, 785
- Mononucleosis
  - infectious, antitubulin antibody in, 328
  - lymphocytotoxins in, 588, 593
- Multiple sclerosis
  - antibodies to measles and distemper viruses in, 44
  - killer cells in, 657
- Mycobacterial infections
  - immune complexes in, 562
- Neutrophils
  - from *S. mansoni* infections, 683
  - migration of, in RA, 240
- 5'-nucleotidase deficiency
  - in hypogammaglobulinaemia, 337
- Onchocerciasis
  - circulating immune complexes in, 570
- Palatine tonsils
  - Ig-producing cells of, 361
- Panencephalitis
  - subacute sclerosing, and Ab against measles virus, 652
- Parasitic disease
  - eosinophils forming rosettes in, 247
- Peptide
  - synthetic C-terminal, antibodies to, 112
- Phenotype
  - surface immunoglobulin, in leukaemia, 83
- Platelet effect
  - of antibody preparations, 461
- Polyvinylpyrrolidone clearance
  - altered by dietary change, 349
- Pregnancy serum
  - suppresses MLR, 195
- Probes
  - fluorescent, of lymphocyte activation (review), 1
- Protein
  - liver- and kidney-specific, isolation of, 626
  - milk, in neonatal milk, 695
- Purpura
  - hypergammaglobulinaemic, IC formation in, 164
  - idiopathic thrombocytopenic, IC in, 170
  - platelet antibodies in, 645
- Pyrimethamine
  - immunopotentiating effects of, 190
- Radioassay
  - for detecting IC, 576
- Reactivity
  - immunologic, following injection of transfer factor, 708
- Receptor
  - C3b, enhancement by chemoattractants, 768
- Receptors
  - B lymphocyte, for antigen-antibody complexes, 676
  - expression of on PBL, 22
- Renal transplants
  - detection of CIC in, 141
- Response
  - humoral, adjuvants for, 426
  - T cell, to HSV, 668
- Responses
  - lymphocyte, after BCG revaccination, 442
- Rheumatic diseases
  - anti-nuclear antibodies in, 538
- Rheumatoid factor
  - interaction with IgG-coated latex particles, 154
- Rosette formation
  - mouse, in leukaemia, 83
- Rosettes
  - mouse RBC, in CLL, 411
- Rosette test
  - human allogeneic, detects erythrocyte autoantibodies, 635
- Serum amyloid P-component
  - response to casein, 355
- Schistosoma mansoni* infections
  - eosinophils and neutrophils from, 683
- Steroids
  - and lymphocyte stimulation, 503
- Subacute sclerosing panencephalitis
  - antibodies to measles and distemper viruses in, 44
- Suppression
  - histamine, of lymphocyte activation, 739
  - induction through T cell interaction, 496
- Systemic lupus erythematosus
  - lymphocytotoxins in, 593
- T cell function
  - in low lead exposure, 746

- T cell interactions
  - induce suppression, 496
- Tetracycline
  - effect on immune response, 728
- Thymopoietin
  - effect on lymphocytes in PCM, 717
- Thymosin
  - effect on T helper and suppressor cells, 722
  - T lymphocytes
    - H<sub>2</sub>O<sub>2</sub> in cytotoxic reaction of, 486
    - in acute leukaemia remission, 403
    - in juvenile-onset diabetics, 130
- Transfer factor
  - immunologic reactivity following injections of, 708
- Treponema pallidum* infection
  - cell-mediated immunity in, 38
- Trimellityl-erythrocytes
  - detect antibodies, 470
- Tumour
  - brain, immunobiology of, 395
  - mouse, in study of Goodpasture antigen, 733
- Vasculitis
  - digital, in RA, 146
